

Cost and time studies using the BeamRider laser guided line marker - Municipalities

Study 1

Mark out a soccer pitch from new – Study revealed an average of 2 hours per pitch to complete this task using traditional methods

Traditional method 3 hours per pitch 2 man operation @ £15.00 each per hour Total of £90.00 per pitch Total for 25 pitches = £2250.00	BeamRider 1 hour per pitch 2 man operation @ £15.00 each per hour Total of £30 per pitch Total for 25 pitches = £750.00
--	--

Saving of £1500.00 (\$2700.00)

Study 2

Initial mark a high volume of soccer pitches prior to new season

Traditional method 2 hours per pitch 2 man operation @ £15.00 each per hour Total of £60.00 per pitch Total for 250 pitches = £15,000.00	BeamRider 1 hour per pitch 2 man operation @ £15.00 each per hour Total of £30 per pitch Total for 250 pitches = £7,500.00
---	---

Saving of £7500.00 every year (\$13,500.00)

Further examples of benefits

- *Perfect, straight and uniform lines*
- *Allows a high quality and standard of workmanship to be achieved week after week*
- *Easy to operate – anyone can use the system*
- *Self correcting and maintenance free software – Operators cannot make mistakes in line straightness and quality, deviations are automatically detected*
- *Can be used periodically to quickly and efficiently straighten and correct previous pitch markings, saving time and money*
- *Environmentally friendly method to mark out pitches*
- *Operator friendly and self correcting software – you cannot produce a wobbly line*
- *Easily cleaned and maintained*
- *Multi-tasking – mark out playgrounds, tennis, netball, etc accurately and easily*
- *Guaranteed client/customer satisfaction*
- *Efficient and easy way to produce high quality work*
